Governor Willson denies that he is suffering from a physical breakdown.

The fact that the L. and N. office sold here forty tickets yesterday to the 'Burg, is sufficient evidence that Maysville was well represented in Flemingsburg Monday.

A bevy of ladies assembled at the Public Library the other day were talking of the propriety of establishing a Charity Ward in the Hayswood Hospital. Not a bad idea and would fill a long felt want. Suppose the ladies suggest the matter to the Board of Directors of the Hospital.

The river came to a stand last evening, after reaching 47 feet. It is on the down grade this morning, having receded 3 tenths. This is third time since January that the Ohio has developed a stage of 47 feet or more—47, 49 and 49.9 tenths. The third time generally winds up the ball in a series of events and let us hope this is the last effort, for this year at least, in the beautiful trying to spread itself out over the banks.

### REACH'S 1908 GUIDE.

Reach's Official American League Guide for 1908, published by the A. J. Reach Company of Philadelphia, and edited by Mr. Francis C. Richter, of "Sporting Life," is out, and is, as usual, first in the field, thus making it the harbinger of the baseball season. It can be said without qualification that, excellent as all of the editions of the Reach Guide have been in recent years, the 1908 Reach Guide is the best hand book of the kind ever issued by this or any other publisher. The special distinction of the 1908 Guide is, next to the text, the superior quality of paper used and the number and beauty of the engravings furnished, the world's championship series being specially well endowed with splendid action pictures. The American League Guide for 1908 is in all respects a first class hand book of the National game and a decided credit to the American League and to the publishers, the Reach Company.

### CASE ENDED

Purdon Bros. Fined \$3 and Costs by Judge Whitaker Yesterday

When the contempt case of Purdon Bros. was called by Judge Whitaker in the Police Court yesterday afternoon, Attorney Frank P. O'Donnell arose and addressing the Court, in substance said:

"May it please Your Honor, I am here to represent the defendants, and wish to say that if an infraction has been committed against the dignity of the Court that I am the guilty one and not the gentlemen whom I represent. In making this admission I earnestly disavow any intent of disrespect to this honorable Court, having the high regard, as I do, for the law and its observance.

"When approached in regard to the matter I was otherwise engaged, and cursorily glanced over the paper. I inquired if they had consulted with another lawyer, and if so what was his opinion? Being answered in the affirmative, and that the advice was that they need not pay any attention to the summons, I then said, 'That is my opinion, too.'

"Under the circumstances, I feel that I am the one that should bear the burden and not Purdon Bros. I ask that Your Honor dismiss the defendants."

The above may not be verbatim et literatim,

but the context is there just the same.

Judge Whitaker explicitly stated the nature of the offense and elaborated extensively on the law governing the same, and summed the whole by fining the defendants \$3 and costs each.

WEST SECOND STREET, OPPOSITE OPERA HOUSE

FOR PRESIDENT,  
WILLIAM H. TAFT,  
of Ohio.

FOR VICE-PRESIDENT,  
CHARLES E. HUGHES,  
of New York.

ONE hears it said that the rich compel the poor to work. To this CLEMENCEAU has most wisely replied: The rich do not compel the poor to work; nature compels them to work. Work, the search for food, is the universal law of nature, imperatively laid on all, young and old, male and female alike, and lasting the whole lifetime. All that the rich do is to show the poor what to work at; and this they do, not because they are rich, for a rich fool cannot do it, but because they have the twofold power of seeing what is needed to be done, and co-ordinating the powers of others, to get it done.

The poorest man in the country, if he have these two powers, will soon become rich.

It is not capital that makes power effective; it is inherent power that makes capital effective.

The richest men among us today began with no capital but their inherent power; and what we call capital is merely the register of that power, the evidence that the power has been exerted; but the inherent power is the real thing. Whatever form the state may have, we are, and always shall be, dependent on

those who have the twofold power of seeing what is to be done, and of co-ordinating workers to do it.—American Industries.

To ALL statements that "Nebraska is for TAFT," Mr. BRYAN begs leave to file a minority report.—Portland Oregonian.

You hardly ever hear of a man killing himself from blowing his own horn too much; but a New York man died from the effects of blowing a tuba in a brass band.

It will cost the taxpayers of New York City about \$148,000,000 to meet the current expenses of the city this year. This is an increase of \$18,000,000 over 1907.

SENATOR BRADLEY and young Mister BRUNER appear to interpret it that they were not merely elected to office, but also that they were chosen to run the Republican party in Kentucky, and, incidentally, the balance of the universe.

THE outlook at Washington is very favorable for the passage by Congress of the Employers' Liability act, which will doubtless meet and overcome the unconstitutionality of the present law recently pointed out by the Supreme Court.

THE country is soon to be electrified again. At Fort Meyer, Washington, Saturday, moving pictures of Secretary TAFT and General FRANKLIN BELL were taken, and electric pictures of the next President will soon be seen in every theaterium in the world.

FOR MISPLACED COMMA.

A Kansas Editor who paid little attention to punctuation is now defendant in a libel suit because he published an item as follows:

"Two young men went with their girls to attend teachers' meeting and after they left, the girls got drunk." The comma should have gone after "the girls;" but, as it is, the girls have gone after the Editor.

## BABY TORTURED FOR 6 MONTHS

By Terrible Itching Eczema—Face and Head a Solid Sore—Spread to His Hand and Legs—Would Scratch Until He Bled—Tiny Sufferer Immediately Relieved and

ENTIRELY CURED IN 2 MONTHS BY CUTICURA

"When my son Walter was three weeks old, eczema appeared on his face. We did not know what it was so we went to a doctor who treated him for three months. Then he was so bad that his face and head were nothing but one sore and his ears looked as if they were going to fall off, so we tried another doctor. He said he could cure him and we never getting any better. His hand and legs then had big sores on them and as for his sleeping, we could not think of it, the poor little fellow suffered so terribly. First I tied his hands to the crib to keep him from scratching, but when it got so bad I tied him in a shawl or he would scratch himself all bloody. When he was seven months old we tried a set of the Cuticura Remedies. The first application of Cuticura let him sleep and rest well, in one week the sores were gone but it stayed red and sometimes it would itch so we used Cuticura for two months, then he had a clear and white face. Now he is two years and seven months old and has never had eczema again. I hope this letter will help some who are suffering from skin disease. Every mother who has a baby suffering with skin disease should just try Cuticura; there is nothing better. Mrs. Louis Beck, R. F. D. 3, San Antonio, Tex., Apr. 15, '07."

A single set of Cuticura Remedies is often sufficient to cure torturing, disfiguring, itching, burning, and scaly humors, eczemas, rashes, and irritations, from infancy to age, when all other remedies fail. Complete External and Internal Treatment for Every Humors consists of Cuticura Soap, 50c, to cleanse the skin, Cuticura Ointment, 50c, to heal the skin, and Cuticura Resolvent (50c), for the removal of blood poisons. #### NIGHT RIDERS

Active in Many Sections of the State—March on Eddyville—Warnings Near Louisville

Eddyville was treated to another shootout Sunday night. About 100 strong, all mounted, securely masked and heavily armed, in case of emergency, they marched just within the city limits and came to halt at the order of the commanding officer. Four of them, supposed to be leaders, rode a short distance away from their warriors, talked in subdued tones as if holding consultation for a time, and then returned to the main body, speaking in commanding voices. At this juncture a gun was fired and each steed plunged forward like mad, while its rider incessantly pumped fire and lead into the atmosphere.

No damage was done, but the suburban residents, as well as others who live in town, were frightened beyond contemplation. The town is now guarded.

#### NEAR LOUISVILLE.

A number of tobacco growers of Conner's Station, Shelby county, and immediately on the border line of Jefferson county, have suddenly announced their intention of raising no tobacco. All the farms are on the Louisville and Shelbyville branch of the L. and N., near the State pike and about eighteen miles from Louisville. This is the nearest to Louisville that occurrences of this nature have happened.

Following a visit from a party of mounted men several days ago the tobacco growers of the Knob Creek district of Bullitt county, without an exception, have decided to raise no crops this year. Knob Creek is near the Jefferson county line and about fifteen miles from Louisville.

#### SOME INTERESTING DECISIONS

Cities Liable For Damages When Persons Are Hurt or Killed by M. O. Electric Current.

It has been claimed that municipal electric light plants are not liable to one item of expense, which in the case of private plants is sometimes a very large one—viz, damages for injury or death due to contact with a live wire. If this were a fact, it would only go to show the unfairness resulting from municipal ownership in making an innocent individual bear all the burden of an accident which may result from municipal parsimony or carelessness. While the decision of inferior courts has sometimes been in line with this claim, recent decisions of higher courts are opposed to this view.

In the case of Davoust versus the city of Alameda the supreme court of California held the city liable for damages, but the case was complicated by the fact that the municipal lighting plant was engaged in a commercial business as well as in lighting the streets. The supreme court of Indiana has just handed down a decision where this complication is not involved. In the case of Alken versus the city of Columbus it holds that municipal ownership and the management of municipal utilities do not make such business a government function to the extent of relieving the city from liability for negligence, and it must pay damages to a person injured by the fall of a defective live wire. Although they are not at hand for reference, we recall similar decisions by the courts of other states.

It is worth noting that in general where damages have been assessed against municipal plants or where extraordinary legal expenses have been incurred on account of them the amounts have not been charged up against the operation of the plants, but have been paid out of the general tax levy, thus enabling the plants to show a lower "cost" of operation than would be the case if the items had been properly charged.

#### "CARE, SENSE, CONSCIENCE."

These Three Are Neglected in Public Ownership Enterprises.

The Brooklyn Standard Union in a recent editorial dealt at length with municipal socialism. After enumerating several of the ways in which the city suffers from the maladministration of the utilities already committed to its care the writer sums up as follows:

"What's the good of extending the list of failures and follies? All that it would do would be to illustrate a point already sufficiently patent and painful—that nation, state or city does any job intrusted to it with less care, sense and conscience than the individual manifests when he is working for himself. Care, sense, conscience—that is the trinity of gods whose altars grow dusty when the municipality keeps the temple. In every failure and difficulty that the city has experienced you see red tape, a conflict of authority, an absence of foresight, the preference of party or patronage to the public welfare, a low civic conscience, perhaps a lower civic intelligence, the unhappy consequences of collective responsibility, or, rather, of irresponsibility, as compared with individual responsibility. The other fellow pays—in welfare, health or taxes. The 'public servant' is not exposed to the full operation of cause and effect."

## HUMAN STOMACH HAS BECOME DEGENERATE

Animals Are Healthier Because of Strong Digestive Apparatus.

An interesting interview was recently obtained with L. T. Cooper, the young man whose theory and medicines have created such a sensation during the past year.

Mr. Cooper, in speaking of the remarkable success of his medicine, had this to say on the subject: "My medicine regulates the stomach. That is why it is successful. The human stomach today has become degenerate, and is the cause for most ill health. In the horse, the dog, and the wild animal generally, you see no nerve exhaustion, no chronic debility. They are not shut up day after day with practically no exercise, and they are not able to stuff themselves with food when their bodies have not had enough work to justify it. The human race has been doing this for years, and look at the result—half the people are complaining of poor health, not real illness—just a half-sick, tired, droopy feeling. They don't really know what is the matter with them."

"I know that all the trouble is caused by weak, overworked stomachs. I have proved this with my medicine to many thousands of people in most of the leading cities of this country. I expect to do the same thing in Europe next year. This is the real reason for the demand for my preparation."

Among those who have recently been converted to Cooper's theory is Mr. Monroe Brown of 8 Hancock Street, Winchester, Mass. Mr. Brown has this to say of his experience with

the new medicine: "For over seven years I suffered with catarrh of the stomach, and for the past year I was lame with rheumatism. I attributed this to my stomach trouble, as my circulation was very poor. What food I ate would turn to gas almost at once. I would have a sensation of bloating, and would have to belch frequently to relieve this. My heart also became affected, and I would suddenly become dizzy and have palpitations. I was tired and dull and despondent at all times. I lost a great deal of flesh, and was nervous and depressed. This went on for over seven years, although I spent hundreds of dollars trying to get relief."

"When Cooper was in Boston I heard a good deal about his ideas on stomach trouble. Next, one or two friends told me that his medicines had greatly helped them. I purchased some of the New Discovery medicine. Today I am perfectly well; I sleep like a boy, can eat anything and have no rheumatism or heart trouble. I no longer have any gas on my stomach, and feel as I did years ago. No one could be more astonished by these facts than myself. They are remarkable, but true. This is indeed a wonderful medicine."

The Cooper preparations have been more widely sold and discussed since being introduced than anything of the kind ever before sold by druggists. We then and explain their nature. Chenoweth.

WOMAN'S BACKACHE

The back is the mainspring of woman's organism. It quickly calls attention to trouble by aching. It tells, with other symptoms, such as nervousness, headache, pains in the loins, weight in the lower part of the body, that a woman's feminine organism needs immediate attention. In such cases the one sure remedy which speedily removes the cause, and restores the feminine organism to a healthy, normal condition is

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

Mrs. Will Young, of 6 Columbia Ave., Rockland, Me., says:

"I was troubled for a long time with dreadful backaches and a pain in my side, and was miserable in every way. I doctored until I was discouraged and thought I would never get well. I read what Lydia E. Pinkham's Vegetable Compound had done for others and decided to try it; after taking three bottles I can truly say that I never felt so well in my life."

Mrs. Augustus Lyon, of East Earl, Pa., writes to Mrs. Pinkham:

"I had very severe backaches, and pressing-down pains. I could not sleep, and had no appetite. Lydia E. Pinkham's Vegetable Compound cured me and made me feel like a new woman."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration.

## IN MEMORIAM.

Mrs. Sarepta McClanahan, wife of M. T. McClanahan, died on Friday evening, the 20th day of March, at the home of her husband on the Calvert farm, just above this city.

This excellent couple have been citizens of Maysville and its vicinity for many years past. No couple in our community has been more highly esteemed or had more friends. The large concourse of people which assembled on Sunday afternoon at her funeral attested the regard with which she was held.

Mrs. McClanahan left one daughter, Mrs. Ott Hoferkamp, who resides in Spokane, Washington, who was unable to be present at the funeral, not being well enough to make the long journey.

Mrs. McClanahan had been in failing health for some time, but her death at last came as a shock, her husband and immediate family not realizing her condition until a day or two before the end.

Mr. McClanahan and the daughter and relatives of the deceased all have the sympathy of their large circle of friends in their sad bereavement.

A FRIEND.
